

PRESS RELEASE - 11-14-11

L-3 WESCAM SELECTED TO PROVIDE A SECOND MIDDLE EASTERN CUSTOMER WITH MX™-10 ELECTRO-OPTICAL/INFRARED IMAGING TURRETS

DUBAI AIR SHOW, UAE, November 14, 2011 – L-3 WESCAM announced today that it has received an order from Abu Dhabi Autonomous Systems Investments Co. LLC (ADASI) for eight MX™-10 electro-optical/infrared (EO/IR) imaging systems. The turrets will be used to conduct surveillance duties from the S-100 Unmanned Aircraft System (UAS) platform. Deliveries will begin in December 2011 and will be completed by March 2012.

“ADASI is a recognized leader in the Gulf region for this class of tactical UAS integration, and we’re very pleased that its team has recognized the MX-10 as the most viable solution for the region’s growing surveillance requirements,” said Paul Jennison, vice president of government sales and business development for L-3 WESCAM. “ADASI flight tests with the MX-10 earlier this year were very successful in showcasing both the superior surveillance capabilities and nominal installation and integration requirements of our sensor systems.”

This is the second order of eight units L-3 WESCAM has received by a Middle Eastern company in 2011.

L-3 WESCAM is a world leader in the design and manufacture of stabilized, multi-spectral airborne imaging systems. To learn more about L-3 WESCAM, please visit the company’s website at www.wescam.com.

Headquartered in New York City, L-3 Communications employs approximately 61,000 people worldwide and is a prime contractor in C3ISR (Command, Control, Communications, Intelligence, Surveillance and Reconnaissance) systems, aircraft modernization and maintenance, and government services. L-3 is also a leading provider of a broad range of electronic systems used on military and commercial platforms. The company reported 2010 sales of \$15.7 billion.
