L3 WESCAM Wins ArcelorMittal Dofasco Community Building Award

BURLINGTON, Ontario, April 13, 2017 – L3 WESCAM announced today that it has been awarded the ArcelorMittal Dofasco Community Building Award. This prestigious award is presented each year to an organization that makes a significant difference in the community through its participation in United Way and other local organizations.

“We are honoured to be recognized for our dedication to and support of our neighbours and surrounding communities,” said Mike Greenley, President of L3 WESCAM. “Over the last decade, our employees have successfully raised over \$1 million dollars for the Burlington and Greater Hamilton chapter of the United Way in support of the 63 community agencies it supports. Encouraging employees to increase their community engagement is something that L3 takes to heart and has made a priority.”

“It’s inspiring to be involved with a company that is so well-established as a leader and pioneer in a global marketplace,” said Jeff Vallentin, Chief Executive Officer of the United Way of Halton & Hamilton. “We are proud to know and to see that every person involved in the company remains equally focused on the benefit they provide to their neighbours, family and friends in our community.”

Mr. Greenley added, “Working together as a team toward a greater purpose has strengthened relationships among L3 WESCAM’s co-workers, developed skill sets amongst employees and built a broader sense of purpose to foster a unique and energetic culture within the company. Throughout the year, from organizing blood drives to supporting high school robotics competitions, employees continue to join forces, create clubs and participate in community events that showcase their personal values and dedication to tasks that go beyond their chosen careers.”

Along with fundraising support to the United Way, employee outreach includes the Heart & Stroke Foundation, with participation in the “Big Bike” program, the Wounded Warrior Project®, SickKids Foundation® and Habitat for Humanity®.

L3 WESCAM is a world leader in the design and manufacture of stabilized, multi-spectral imaging systems. To learn more about L3 WESCAM, please visit the company’s website at www.wescam.com.

Headquartered in New York City, L3 Technologies employs approximately 38,000 people worldwide and is a leading provider of a broad range of communication, electronic and sensor
