

## **L3's MX™-15 Electro-Optical and Infrared (EO/IR) System Selected by Airbus Helicopters for Two Foreign Militaries**

NEW YORK--(BUSINESS WIRE)--L3 Technologies (NYSE:LLL) announced today that its WESCAM division has received an order from Airbus Helicopters to provide 37 MX™-15 electro-optical and infrared (EO/IR) imaging systems for installation on multiple fleets of H225M Caracal helicopters. The systems will be installed in France before being delivered to two foreign governments for military deployment.

"This order expands L3's international business base while creating a new market opportunity for our leading WESCAM products," said Michael T. Strianese, L3's Chairman and Chief Executive Officer.

"L3 WESCAM is proud to have been chosen to supply its MX-15 systems, as it highlights our role as a trusted global supplier of advanced imaging technologies to the OEM marketplace," added Mike Greenley, President of L3 WESCAM. "Additionally, it confirms that the highly specialized optics and leading technologies in L3's systems continue to meet the needs of emerging mission portfolios, ranging from combative military to time-sensitive response and recovery operations."

The first delivery of 19 units will support a variety of missions, including search and rescue, aeromedical evacuation and assistance, and disaster relief. The second delivery will provide a highly detailed, multispectral view of combat search and rescue, naval operations, medical evacuation and military transportation efforts to mission operators.

L3's MX-15 can be configured with up to six imaging and lasing payloads, each of which shares the highest level of stabilization. Sensor options include a high-definition (HD) thermal imager, color low-light continuous zoom, daylight step zoom spotter, day/night spotter, laser rangefinder and a laser illuminator. L3's MX-15 can be found on additional models of Airbus helicopters, including the H125 and UH-72A.

L3 WESCAM serves all segments of the airborne, land and maritime markets with advanced EO/IR imaging and targeting systems (MX-Series) and modular system solution kits (MatriX™). MX-Series turrets are operational across 74 countries and on more than 137 different types of platforms, and are supported by more than 14 globally deployed authorized service centers and a team of field service technicians who are available for dispatch 24/7 to anywhere in the world. L3 WESCAM is a unit of L3's Sensor Systems business segment.

Headquartered in New York City, L3 Technologies employs approximately 38,000 people worldwide and is a leading provider of a broad range of communication, electronic and sensor systems used on military, homeland security and commercial platforms. L3 is also a prime contractor in aerospace systems, security and detection systems, and pilot training. The company reported 2016 sales of \$10.5 billion.
