

WESCAM

IN-FLIGHT MX™-SERIES TRAINING

TRAIN FROM THE SOURCE. LEARN FROM THE BEST.

**INTRODUCING L3 WESCAM
IN-FLIGHT TRAINING:**
A New Generation of
In-Flight Instruction Led by
WESCAM-Certified Trainers.

ENSURE YOUR TEAM IS SECURE AND AT-THE-READY WHEN DUTY CALLS

Your Team Depends on You. Be the Best. Continuous education is essential to master the full capabilities of your MX-Series System. Maximize your potential. And your Team's. Secure operational mastery with In-Flight MX-Series training delivered only by experts at L3 WESCAM.

HANDS-ON, PRACTICAL MISSION-EXPERIENCE, TAUGHT FROM THE GROUND UP

- Visual, performance-based, interactive instruction customized to match your specific MX-Series system and the platform you fly
- Fully interactive scenario based solutions and learning theories delivered in a small group format
- Ideal for maintainers and operators of all MX-Series products

IN-FLIGHT CURRICULUM OVERVIEW

- Combines classroom and hands-on training customized to students' aircraft, sensor and interface types. Focused on System Configuration, Operation and Maintenance.
 - » *System set-up, sensor selection, steering mode and mission logistics*
 - » *Sensor optimization for specific mission scenarios*
- Real-life mission scenario role play: Includes day and night flights; practice with various lighting/atmospheric conditions; and crew resource management
- Maintenance and organizational-level maintenance tasking
- Combines theoretical in-class training with the benefit of hands-on tactical experience on a variety of WESCAM EO/IR products

Reliable Solutions.
Delivered Globally.™

WESCAM
CUSTOMER SERVICE

L3 WESCAM IN-FLIGHT TRAINING

A New Generation of In-Flight Instruction
Led by WESCAM-Certified Trainers.

PROGRAM HIGHLIGHTS

- Utilize WESCAM supplied aircraft and sensors—keeping your equipment free for mission availability. Customer aircraft and MX System use is optional.
- Suitable and scalable for all levels of military and public service operators and maintainers, including those who are new to WESCAM systems or have little or no prior experience.

FLEXIBLE OPTIONS

- Training offered globally with varying duration periods
- Choose from open enrollment (buy one to five seats) or a complete, six-seat buyout.
 - » *With a six-seat buyout, train as a team and experience a completely customized curriculum designed for your exact turret, configuration, and unique operational conditions.*
 - » *Open enrollment options offer a slightly more generic curriculum to address all class participants*

IN-FLIGHT TRAINING LOCATIONS, DATES AND PRICING INFORMATION

No one is better qualified to teach and train MX, than those who have designed, engineered and built the product. L3 WESCAM's instructors are subject matter experts in both MX-Series systems and modern education techniques, and provide the optimal experience and uncompromising results you expect from the OEM.
