## **UK Ministry of Defence Selects L3Harris Technologies to Provide WESCAM EO/IR Sensors for Upgrade Program**

### **Highlights:**

- Provides UK MoD with world-class sensors operating with unmatched EO/IR visual capability
- Ensures regional rapid-response and support capability
- Strengthens commitment and partnership across the UK MoD

**MELBOURNE, Fla., Nov. 5, 2019** — L3Harris Technologies (NYSE:LHX) has been selected to provide 40 [WESCAM MX-15](#) electro-optical, infrared (EO/IR) imaging systems by the UK Ministry of Defence – reinforcing the MX-15's proven mission capability and superior reliability.

The award also includes comprehensive in-service support and training, as well as an option to purchase an additional 40 MX-15s. Delivery of the MX-15s and associated support services is expected to be completed by 2024.

“This award extends a very successful 20-year partnership and highlights growth opportunities with international customers who may be considering upgrading older generation products,” said Sean Stackley, President, Integrated Mission Systems, L3Harris. “It also demonstrates our continuous product improvement as security forces worldwide demand greater capability in a more demanding environment.”

More than 2,500 WESCAM MX-15s have been delivered to customers worldwide. This award comes after a detailed competitive process culminating in an operational flight evaluation including more than six weeks of flight testing on both fixed- and rotary-wing platforms.

WESCAM's portfolio of EO/IR imaging and targeting systems range in size from 8 inches to 25 inches in diameter and provide high-resolution, stabilized, full-motion intelligence information in support of low-altitude tactical to high-altitude, ultra long-range persistent missions.

### **About L3Harris Technologies**

L3Harris Technologies is an agile global aerospace and defense technology innovator, delivering end-to-end solutions that meet customers' mission-critical needs. The company provides advanced defense and commercial technologies across air, land, sea, space and cyber domains. L3Harris has approximately \$17 billion in annual revenue and 50,000 employees, with customers in 130 countries. [L3Harris.com](http://L3Harris.com).

## **Forward-Looking Statements**

This press release contains forward-looking statements that reflect management's current expectations, assumptions and estimates of future performance and economic conditions. Such statements are made in reliance upon the safe harbor provisions of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. The company cautions investors that any forward-looking statements are subject to risks and uncertainties that may cause actual results and future trends to differ materially from those matters expressed in or implied by such forward-looking statements. Statements about system capabilities and growth opportunities anticipated contract awards are forward-looking and involve risks and uncertainties. L3Harris disclaims any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events, or otherwise.
